

# Be SAFE

Thanks for taking part in our fire safety session. You have learnt...

To recognise common **fire hazards** and learn **safe behaviours** to prevent fires

Understanding the importance of an **escape plan**

Understanding what to do in the **event of a fire** and how to keep yourself and others safe

## REMEMBER TO BE...

**Shut doors behind you** – This gives you a smoke free room to return to if needed.

**Alert others** – Make sure you shout “fire, fire” as loud as you can so others are alerted.

**Find the nearest exit** – Make sure you get out as quickly as you can.

**Exit and call 999** – Never go back in and call 999 as soon as you are in a safe place.

## YOU KNOW THE DRILL!

Test your smoke alarms

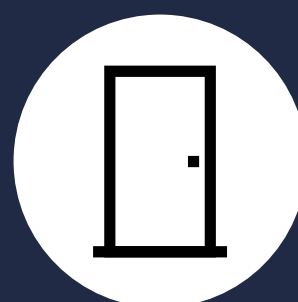

Practise your escape plan

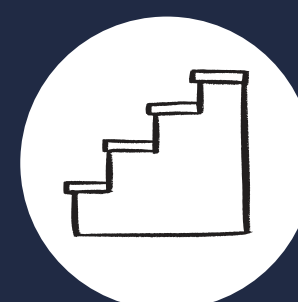

Never touch matches and lighters – Tell an adult to move them

Charge devices on a hard surface

Shut doors at night!

Keep hallways and stairs clear
